

## "HE KEPT US OUT OF SUFFRAGE" SAY WOMEN OF NATION

NATIONAL WOMAN'S PARTY  
BLAMES WILSON FOR DEFEAT  
OF SUFFRAGE

### PEACE WORKERS ARE FOR HUGHES

Women Most Prominent in National  
Peace Are Working Desperately  
For Hughes

Chicago, Nov. 3.—While many women throughout the country were caught up at first by the Democratic battle-cry of "he kept us out of war war," they are responding in large numbers to the slogan of the National Woman's Party, "he kept us out of suffrage," it was announced at the party's headquarters here today.

Many prominent women, among them a number of the founders of the National Peace Party of America, have placed "suffrage first," it was said, and will vote against Wilson because he is the chief opponent of national woman suffrage, the surest way to permanent peace.

Mrs. Wm. Bross Lloyd, of this city, one of the founders of the National Woman's Peace Party, a member of the Ford peace trip and member of the Woman's peace conference at The Hague; Miss Ella Abeel, of this city, another National Woman's Peace Party founder; Miss Crystal Eastman of New York, in charge of the legislative work at Washington, for the national peace party; Mrs. John Jay White, of Washington, of the national executive committee of the national peace party; and Mrs. Gilson Gardner, of this city and Washington, of the national legislative committee of the national peace party, are all working for the Woman's Party against Wilson. Contributions have just been received from all of them to aid in carrying the final appeal to woman voters against Wilson, it was announced. Numerous smaller amounts, it was added, have been coming in from hundreds of other women in all parts of the country, who desire to help spread broadcast the message of the National Woman's Party:

"Vote against Wilson! He kept us out of suffrage."

"The only way to permanent peace," declared Mrs. Gardner, "is for the mothers of the country to have the vote. The suffrage right granted to them would be the greatest preventive of war. The prospect of future wars will be nil when the women of the country can say to the government: 'You shall not embark on a policy of peace of war until we are consulted; you shall not determine what sort of national defenses we shall have, whether civil or military, until we co-operate with you politically; you shall not educate our children to citizenship or soldiering without our wisdom and advice.'"

"We who are interested in world peace, therefore, are striving to roll up the largest possible protest vote against President Wilson, because he opposes the surest way to maintain peace, which is through national woman suffrage."

It is expected a number of students of Dixon high school will go to Morrison tomorrow afternoon to root for the local high school football team in its game with the Morrison high. ### EDWARD J. BRUNDAGE

Edward J. Brundage, Republican candidate for Attorney General, has been a member of the Chicago bar since 1892. He was born in Campbell, N. Y., May 13, 1869, and in 1888 his parents moved to Detroit. Young Edward received a common school education and at the age of fourteen faced the world for himself. He found employment in a Detroit railroad office and two years later moved to Chicago, where by 1888 he had risen to the position of chief clerk. Mr. Brundage studied law at odd times and was graduated from the Chicago College of Law. He was elected a member of the lower house of the legislature from the Sixth district in the Forty-first and Forty-third General Assemblies, after which he was chosen president of the Cook county board of commissioners. Next to mayor of Chicago this office carries with it greater responsibilities than any in the gift of the people of Cook county. Mr. Brundage made a name for himself in this position by fathering the plan to build a new county courthouse at a cost of \$5,000,000. His plans commended themselves to the voters and Mr. Brundage was re-elected, but resigned in 1907 to accept the office of corporation counsel of the City of Chicago. Mr. Brundage for years has been prominent in Republican politics in city and state.

## CHANGES IN LINE OF AUTO PARADE

TOMORROW EVENING TO  
BE ELABORATE.

### GREAT CLOSE FOR CAMPAIGN

Changes affecting the line of march the line of march in the republican women's auto parade for tomorrow evening have been made which will extend the line and give more people an opportunity to witness the pageant. The parade will form on Ottawa avenue between Second and Third streets at 6:30 o'clock and will commence to move at 7, headed by Capt. Sam W. Cushing as bugler. The line of march will be:

North on Ottawa avenue to First, west to College, south to Sixth, east to Depot, north to Third, east to Peoria, south to Seventh, east to Galea, north across the bridge and around John Dixon park, counter-march south on Galea to First, west to Peoria, south to Second, east to People's church for the meeting.

### Want Lighted Streets.

The committee requests that the houses along the line of march be lighted during the parade and that every republican woman who has an auto decorate it and take part in the parade. However, should some find it inconvenient to decorate their cars, they are asked to participate anyway. The Chamber of Commerce band will be on a big truck in the parade, furnishing inspiring music for the enthusiastic women.

R. C. Bovey will have charge of assigning paraders to cars at the court house prior to the parade, and with his assistants will also direct the seating of the people at the church. Until 8 o'clock seats will be reserved for the old soldiers.

Mr. and Mrs. John Tyrrell have returned from their summer home up river and are located at 763 West Second street.

## JUDGE CRABTREE IS HEAD OF MENS CLUB

ELECTION OF OFFICERS HELD  
AT FIRST BANQUET ON  
THURSDAY EVE.

### EXCELLENT ADDRESS ON JAPAN

Percy Smith, Former Dixonite, Told  
of His Observations in  
Orient.

Over 100 men attended the first meeting of the Y. M. C. A. Men's club at the association building Thursday evening and enjoyed a fine repast and an excellent address, in addition to participating in the election of the following officers:

President—J. B. Crabtree  
Vice President—A. W. Leland  
Sec. Treas.—J. DerKinderen.  
Fine Banquet.

The banquet was served at 6:30 o'clock by the Ladies' Auxiliary and was fully up to the high standard the organization has set in previous affairs of this nature. During the meal the Dixon Mandolin club furnished music.

The principal address of the evening was by Percy Smith, son of Prof. E. C. Smith, formerly of Dixon, who spoke of Japan and her people. Mr. Smith spent 13 years in Japan as an educator and his message was listened to attentively. He said Japan has the strength of a primitive nation, but is still in her adolescent period, conscious of her own strength, boastful and ambitious. Japan confidently expects to be the leader of Asia, and is a country of antitheses; the best modern science and most unbelievable superstition exist side by side, up-to-date automobiles sharing the streets with ancient vehicles; the schools teach history which is untrue, but withal the nation is progressing steadily.

### Need Money for Pool.

Before Mr. Smith's address Sec. DerKinderen called the members' attention to plans for the winter and also told the men that the swimming pool was in need of repairs which would cost about \$1500. He said if the pool is put in proper condition every boy and girl in the graded schools of Dixon could be taught to swim—a desirable accomplishment considering that Dixon is a river town.

## REPUBLICAN RALLIES DREW LARGE CROWDS

MEETINGS AT NELSON AND PAW

John H. Byers, Attorneys Martin Gannon and Grover Gehant and S. J. Whetston were the speakers at Nelson, where a quartet composed of Elmer and Curtis Rice, J. B. Lennon and Dr. Evans sang.

Cleveland, Nov. 3.—Welcomed by a crowd estimated at 50,000 and cheered for almost five minutes, Theodore Roosevelt at a big Republican meeting told President Wilson's Buffalo address as his text and ripped into the Democratic administration in his usual hammer and tongs style.

His arrival was the scene of a great demonstration. So great was the crowd around the armory that an overflow meeting was held and Roosevelt made a second address from the steps of the new City Hall.

He received a public school education and also a business college course, going early into the banking business. He served as city treasurer of Jacksonville for five terms and was elected state treasurer in 1910. Mr. Russel has been chairman of the board of trustees of the State Horticultural society. Mr. Hopkins also stated that farmers in Bureau Co. were turning their hogs into the fields to help themselves and are also buying more to be fed that way.

## Lee County Soil Assn.

Bulletins From Office Of County Agent

### BUTCHERING TIME

Circular No. 37.

All housewives can fruit and a few can vegetables. Wouldn't it be nice to can a lot of beef or pork you butcher—ready for serving? Too much meat all at once makes you sick and tired of it, but by canning a part of it the meat is good and safe for all the year.

See how easy this method is and then try it. Follow directions and you will have no trouble.

#### Equipment.

Use a clean washboiler, lard can or even a bucket with a tight cover. Use a false bottom of lath rack or wood with plenty of holes to allow free circulation of water, or your tinner can make a wire rack of quarter inch mesh wire and a strip of galvanized sheet iron an inch wide, placing the iron on edge in order to hold jars off bottom of boiler or can. Use thoroughly cleaned jars and good rubber tops. Quart or half gallon jars are best. Always keep water an inch or more above tops of jars.

#### Method of Canning Beef Soup

Use beef hocks, joints and bones with marrow. Strip off fat and meat and crack bones with hatchet. Put the broken bones in a thin sack and place in a large kettle with a gallon of water for every five pounds of bones. Simmer (not boil) for 6 hours. Do not salt. Skim off all fat. Place this liquid hot in glass jars. Tighten caps almost tight. Sterilize in the lard can or boiler for 40 minutes. Water to cover jars one inch above tops and count time from time water

boils vigorously.

**Canning Beef.**

As soon as beef has been killed, cool quickly and keep cool for 24 hours. Cut into convenient pieces, remove gristle, bone and excessive fat. Salt as for cooking and pack tightly into glass jars. Put on rubber caps and sterilize in your home made cooker for four hours. Time to be counted from time water boils vigorously. Remove jars, tighten covers, invert to cool and wrap with paper to prevent bleaching.

#### Canning Pork.

After the hog has been butchered cool quickly and keep cool for 24 hours. Can only lean parts. Cut into small sections. Salt as for cooking and pack closely in glass jars. Handle same as for beef.

#### Sugar Cured Hams.

Try this method of curing hams. It is first class if done carefully. For 100 pounds of cooled hams or shoulders use the following:

4 pounds dairy salt,  
2 pounds light brown sugar,  
4 ounces black pepper,  
2 ounces saltpeper.

Mix salt brown sugar and pepper together thoroughly. Moisten the salt peper and mix with others. Apply to 100 pounds meat all at once or third of it each day for three days. Rub in well especially around joints. Meat can be smoked later or not as desired. Carefully wrapped hams should keep all summer.

L. S. GRIFFITH,  
County Agricultural Agent.

Youth Accused of Stealing to Submit to Operation.

Flint, Mich., Nov. 3.—Another test of efficacy of surgical correction of mental defects was made possible by Judge Mark W. Stevens when he accepted a motion from Prosecutor C. A. D. M. Shively, counsel for the Gaskill family, and M. L. Gaskill and Fred Anderson, all of South Bend, secured his release when they told the court that the youth was mentally defective as a result of a motorcycle accident a few years ago in which his head was injured.

## 25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save your hair! Make it thick, wavy and beautiful—try this

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Tells in Following Letter How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Milwaukee, Wis.—"Before taking Lydia E. Pinkham's Vegetable Compound I was a physical wreck. I had been going to a doctor for several years but he did me no good. A friend told me about Lydia E. Pinkham's Vegetable Compound, so I decided to give it a fair trial, and it gave me relief from bearing down pains which had been so bad that I would have to lie down. I also used the Sanative Wash and it has done me a great deal of good, and I am not troubled with a weakness any more."—Mrs. P. L. BULL, 1239 Booth Street, Milwaukee, Wis.

## COAL SHIPPERS FLAY RAILWAYS

Cars Diverted to Haul Luxuries as Famine Impends.

## PRICE OF FUEL GOES SKYWARD

**As Mines Are Idle and Product Rises**  
300 Per Cent Railroads Claim Shortage of Cars—Mine Owners Dispute Statement—Supply in Chicago Runs Short.

Chicago, Nov. 2.—The price of steam coal has jumped 200 per cent at Illinois mines and big consumers in Chicago are seriously considering whether they will operate at a loss or close down their plants indefinitely. There is a ten days' supply of soft coal in Chicago and a sudden cold snap would deplete that supply.

The price of soft coal normally is 70 cents at the mines to consumers of large amounts. Now it is \$2.75 and \$2.90. The increase is due to the lack of coal cars.

**Using Cars for Luxuries.**  
Mining men declare the railroads are using the coal cars to transport luxuries and denying cars to the mines.

**Factories May Shut Down.**  
"Cheap coal is necessary for Chicago factories," said A. T. Murphy, president of the Black Diamond company. "Ordinary factories use 200 tons a day. There is no telling what the price will be if we have a sudden change in the weather. As soon as the present stock is exhausted buyers will have to go into the open market and that would mean famine prices."

"Many factories in the stock yards district are debating closing down." The reason coal in Chicago is cheaper than in the East is the fact that the stock on hand was bought at a low rate. But those prices will continue, it is said, only until the present stocks are depleted.

The most important question to be considered by the American Association of Railways in Denver next month is how to compel railroads to return cars to their owners.

## THE WAR TO COME.

Some time during the administration of the next president of the United States the war in Europe is to come to an end.

The existence of that war has compelled Europe to buy from the United States some two billion dollars more worth of goods a year than Europe required from this country in peace times. When the war ends those purchases will cease abruptly.

"Europe already is reorganizing her industries," warns Edward N. Hurley, chairman of the Federal Trade Commission.

She, as Mr. Hurley shows, and as the studies of the National Foreign Trade council have demonstrated, is reorganizing them on a basis to shut European markets to American producers, and to invade American markets with her cheap products. England, for example, proposes to feed herself from her colonies and to cease buying wheat and other foodstuffs from the United States.

An economic war of combined groups of European nations against the United States is the prospect.

But, were the conditions after the war to be more onerous on American producers than they were before the war, in what state of preparedness would we be to meet them if the democratic administration is still in power?

One can judge only by conditions immediately preceding the war. In the ten months immediately preceding August, 1914, when the war began, democratic legislation and democratic administration had substituted poverty for prosperity in this country. Unemployment was becoming a menace. Commercial failures multiplied, bank clearances fell off, building operations were at a standstill. These are matters within your own recollection. Bear them in mind.

If you want to return to them, vote for Wilson.

## A TARIFF AND A TAX.

The democrats are boasting of the tremendous revenue producing powers of the "Underwood tariff law." What they really mean is the revenue producing powers of the "Underwood tax law."

The Underwood bill turned more than \$777,000,000 into the treasury last year. Of this sum, however, the "Underwood tariff" produced only \$211,000,000—a little more than one-fourth.

The balance was derived from the income tax, from the iniquitous and profanely breeding stamp taxes, from the so-called "war taxes"—which have been levied with the approval of a president who has "kept us out of war"—from the excise taxes levied upon corporations, from the taxes upon theatres, upon soaps, upon toilet articles, upon everything, in short, which the ingenuity of an Alabama statesman could devise, provided only that the articles and industries taxed should be so located that the north and not the south should bear the principal burden.

The Underwood "tax law," on the produced revenue. It has opened our markets to the foreigner. It has made it more difficult for Americans to do business.

The Underwood "tax law," on the other hand, has produced an abundance of money. There is a great difference between a "tariff" and a "tax." The "tariff" is paid by the foreigner who wants to sell his goods. The "tax" is paid by our own people, directly and in cash.

The late Allen G. Thurman used to shout "A tariff is a tax." He convinced nobody. But Mr. Underwood has demonstrated that his "tariff" is in very truth a "tax."

## A DEMOCRATIC PRETEXTION.

The pretense that President Wilson is entitled to credit for keeping us out of war is the most ridiculous that has been put forward on his behalf, with one exception; the assumption that democratic policies had something to do with the country's war-time prosperity.

No mistake can possibly be made as to the part that democratic programs played in the matter of prosperity. Everybody remembers that business was steadily on the downgrade from the time a pathetic minority of the country was able to elect Wilson president. It merely plunged downward at a more rapid rate after the new regime had had time to hitch its tariff hoodoo on the nation. There was an ample period of this experience to convince the public what would have happened if the war had not come as a godsend to the party in power.

If there is any single institution in the world that is distinctly entitled to be glad there was a world war, it is the democratic party. If the war had not happened, creating an artificial, abnormal and extravagant demand for American products, the democratic party would today be even more completely discredited than it is.

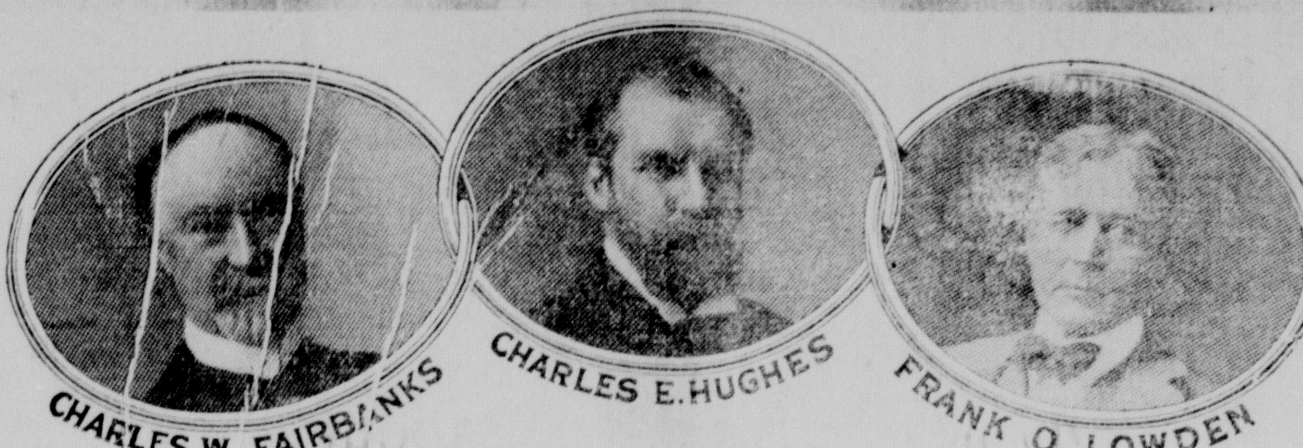

Everybody knows this, understands it, has seen the unfolding proofs of it; and it is the complete explanation of why the country has already given conclusive demonstration of its purpose to get rid of the democracy.

## A SPOTTED PROSPERITY.

The democrats are making a big fuss about prosperity, a prosperity that has come to this country in spite of the democratic party, instead of because of that party. It is at the best a "spotted" prosperity. The munition makers are getting fabulously rich, but we can't see where that gets us anything in Dixon.

And besides, with flour at ten dollars a barrel, and everything else as high as it is, we fail to see the advantage of so much prosperity. Mighty few laboring men are being benefited by it. No office men are being helped. Everybody is paying exorbitant prices for everything they eat and wear. The prosperity is for the benefit of a favored few.

The voters of Nelson and Pawpaw turned out in good big numbers to hear the republican speakers last evening. They listened attentively and applauded generously. The crowds all over the state seem to be greatly in favor of the return of the republican party to power in the state and nation.

## ITALIANS TAKE STRONG WORKS

six cannon, many machine guns and vast quantities of war material.

The new offensive was launched Wednesday. The first official word of its results to reach Rome was given out Thursday in a war office statement.

This statement declares that the Austrian lines were penetrated at several points, notably south of the Oppachissella - Castagna - Vizza road, where the Italian gains were completely held despite the most violent counter attacks.

Advance Almost Mile. On the Carso plateau the Italians at points advanced almost a mile. East of Egiti two-thirds of a mile of strong positions were won.

The advance was made across treacherous ground, soaked by the recent rains. General Cadorna struck at the moment when the weather cleared. Sharp, but not especially prolonged artillery preparation, preceded the storming actions.

As a result of the fighting in the Gorizia region the Italians occupy the eastern slope of Tivoli and San Marco, as well as the heights east of Sober.

The brunt of the Carso fighting was borne by the famous Eleventh army corps. Here the wooded slopes of Veliki were stormed and Kribuch, and Hill No. 375 carried. This latter height dominated Monte Pecinka, a strong Austrian position, from the east.

## RUSSIANS DEFEATED IN VOLHYNIA SECTOR

Teutons Carry Witoniez Positions after Three Repulses.

London, Nov. 3.—In give and take fighting on the Galician front, where winter may at any time now impose its drag on military operations, the central allies Wednesday won a considerable victory. General von Linsingen's troops, under the immediate command of General von Dittfurth, stormed Russian positions in front of and south of Witoniez, on the west bank of the Stokhod river, and after a bitter battle won them, capturing in the undertaking more than 1,500 prisoners.

The battle opened in the morning, the Russians stubbornly defending their commanding defenses on the heights south of the village. Three times the German waves were thrown back.

Then the German heavy artillery was called into play to prepare for a fourth assault. After a withering bombardment General von Dittfurth's gray-clad troops were unleashed again.

This time they succeeded in winning the coveted positions. The German war office asserts that the Russian losses in dead and wounded were heavy, as well as in prisoners.

V. R. McCreery and Louis Schumm made a business trip to Polo Wednesday.

## DUNNE INCONSISTENT IN "HOME RULE"

(Continued from Page 1)

was taken away? Certainly his friendship for the principle is of slight value when he must admit that Chicago had home rule when he became governor and that at the expiration of his term it has lost it.

## His Only Reference.

The only reference to the subject which throws any light upon his present profession of friendship for local control of the city's public utilities is contained in his message of 1915. He there says: "While the operations of the commission have been satisfactory throughout the entire state, including Chicago, and while there

lary commission for the city of Chicago to take charge of and control the intraurban utilities of that city." What is an ancillary commission? A commission created to assist the state commission and subordinate thereto. Such a commission would not in any way restore to Chicago its control of its utilities but would simply mean a little different method of administration. Is that what he means when he says he has "always supported and will continue to support home rule by the cities?" If so, he is trying to deceive the people, for an ancillary commission would be no possible kind of substitute for home rule.

Chairman Fred Sterling has received a prediction concerning the 1st judicial district, comprising Alton, Jackson, Williamson, Massac, Johnson, Pope and Pulaski counties, that Hughes' jury will there be 10,500, an average of 500 to the county.

## Banner Meeting.

Walter Rosenfield, chairman of the utilities of that city and I therefore favor the creation of such an ancillary commission to take charge of and control the intraurban municipal utilities of that city and I therefore received a report of what he consid-

ers the banner downstate meeting in this campaign. It was held in Sparta, Randolph county which has less than 3,000 inhabitants. There were 10,000 persons present.

A poll from Carbondale, taken among the women on the principal streets, showed Hughes 57, Wilson 11. In a Carbondale school district a poll among the women showed Wilson 10, Hughes 48.

## Women for Hughes.

One of the remarkable straw ballots of the campaign was taken at Westville, near Danville, Ill., in the coal mining district. A few days ago under the auspices of the local republican organization two women began a careful poll of Lithuanian, Polish, Hungarian and other foreign born women workers of the town. The poll was confined wholly to women voters as between Hughes and Wilson. The total number of women called upon who expressed a preference was 365.

Every one was for Hughes. Not a woman of the entire lot announced her intention of voting for Woodrow Wilson.

## WATCHMAN SNOOZES, BANDITS LOOT BANK

Braidwood, Ill., Isolated by Yeggs Who Cut Wires.

BRAIDWOOD, ILL., Nov. 3. Automobile bandits, in one of the most daring raids, terrorized the Village of Braidwood, and, after looting the private bank of W. R. Odell & Co. of \$6,000, cut all wire communication and escaped.

Braidwood was unable to restore communication with the outside until after daylight, and then the information came that the village watchman was missing.

So quietly did the robbers work that the village watchman slept serenely on until long after they had fled. At first, when he could not be located, it was feared he had been either killed by the bandits or carried away. Later, however, he was found asleep at home.

Emma Hines, living across the street from the bank, was apparently the only person who heard the explosion which wrecked the bank vault. She looked from her window just in time to see four men enter an automobile and drive away. By the time she had spread the alarm the raiders had made good their escape.

It was more than two hours before telephone and telegraph wires could be repaired and authorities of nearby towns notified to be on the lookout for the men.

### AURORA BREAD IS SIX CENTS

Bakers Say It Is Only Temporary—Will Go Higher.

AURORA, ILL., Nov. 3. Aurora made bread goes to six cents per loaf Monday.

The Aurora bakers say that it is impossible for them to continue the present five cent loaf.

They also give out the cheering news that the price is liable to be only temporary. It will probably rise again shortly.

## For Theatre Patrons

Happenings of the Day in Amusements

### DIXON OPERA HOUSE

Perry J. Kelly's latest musical comedy offering, "My Home Town Girl" featuring John Hyams and Lella McIntyre, late stars of The Girl of My Dreams, will be the attraction at the opera house Tuesday night, Nov. 7. While these stars are sufficient to make the play attractive, the other members of the cast insure the success of the piece. Principal among them are Eda von Luke, late featured The Prince of Pilsen, and who was with Hyams and McIntyre in The Girl of My Dreams; Maude Beatty, Doris Vernon, Dorothy Reich, Roy Purviance, Maurice Darcy and Geo. Hall. Pretty girls dancing and new, catchy music are part of a beautiful scenic production, the latest from New York studios.

In a tour of the larger cities last season "My Home Town Girl" met with the unanimous approval of thousands of theatregoers who are followers of Hyams and McIntyre, and the production received the un-

qualified praise of all critics.

### PRINCESS THEATRE

"The Black Terror" the headliner at the Princess tonight, is a drama that will keep you guessing up to the last end of the last reel and then it turns out altogether different from the way you had it "doped." The other two pictures are "Just As He Thought" and "Foiled." The former is a 5-reel drama while the latter is a two reel western comedy.

### GARRICK THEATRE, CHICAGO

That two-fold delight, "The Princess Pat," with Henry Blossom's humorous libretto and Victor Herbert's beautiful score, will begin the third week of its limited engagement at the Garrick theatre. Clean, clever, bright and fascinating, with multitudinous pointed epigrams, which never fail to tickle the risibilities of an auditor, furnishing snap a-plenty

between the lovely, haunting strains which dominate the score, this comic opera is presented with practically the complete original cast which has been during the long run of the play at the Cort theatre, New York, and later at the Park Sq. theatre, Boston, last season. "The Princess Pat" has a tangible plot. The young person in question is a sparkling, vivacious rich lass. Her particular girl friend, Grace Holbrook, is engaged, for financial reasons, to a widower of sixty, a millionaire. She does not love him, but is infatuated with his son. In order to arouse her apparently indifferent husband and at the same time help her friend escape from the listless engagement to wed, Princess Pat decides on a flirtation with the widower. Her plan proves successful and, as is characteristic of comic operas, all ends happily. Every one of the twenty numbers is a gem and among the most popular are: Allies; Love Is Best of All; All For You; Two Laughing Irish Eyes; I'd Like to Be a Quitter, But I Find It Hard to Quit. The mountings and costumes are in full keeping with the general excellence of such a production. The cast includes such artists as Venita Fitzhugh, Oscar Figman, Al Shean, Alexander Clark, Louis Casavant, Da vid Quixano, Martin Haydon, Maude Gray, Ralph Riggs and Katherine

Witchie.

### "ALONE AT LAST"

ILLINOIS THEATRE, CHICAGO

Messrs. Shubert are presenting at the Illinois theatre for a limited time the tuneful and brilliant Viennese play, "Alone At Last" with music by Franz Lohar, composer of "The Merry Widow," and a numerous cast, and chorus. Lohar intended that it should be his most ambitious work, but it seems he could not resist the temptation to please the ear with the result that "Alone At Last" literally abounds in catchy tunes and at least one waltz which takes rank with his famous Merry Widow ballroom composition. Included in the cast are Harry Conner, Fritz von Busing, Forest Huff, Stella Norelle, a new Italian prima donna, Elizabeth Goodall, Robinson Newbold, Miriam Folgon, Harold Everts, John E. Wheeler and others.

Pictorially, Alone At Last is not so classed with the usual run of musical plays. The requirements of the story make necessary a scenic equipment quite out of the ordinary. For example, the story narrates scaling of Jungfrau by the two lovers and as much of the story is carried on by song there was no way to avoid showing the actual ascension, mountain and all. Therefore as the audience

its quietly back, the scenes dissolve into another till the base of the mountain becomes the very top. And here the lovers are overtaken by the night (to say nothing of gossip) and re compelled to remain till dawn.

The boy, however, turns out to be a aron and, of course, a gentleman instead of a rough guide, as the gossip at the Inn had supposed and the girl is saved when he proposes marriage and is accepted.

A special \$1 Matinee will be given on Election Day, Nov. 7th, in addition to regular matinees, on Wednesday and Saturday.

### "THE UNCHASTENED WOMAN"

PRINCESS THEATRE, CHICAGO

According to the Chicago and New York dramatic critics Oliver Morosco has earned the sincere thanks of every thinking theatre goer in the country by his production of Louis K. Anspacher's unusual and unconventional comedy drama, "The Unchastened Woman" of which Miss Emily Stevens has the stellar role of Caroline Knollys and which is now in its third week at the Princess theatre, Chicago.

The play was first presented at the 39th Street Theatre, New York City, and for seven months filled it with amusement lovers seeking something

different. It has been said to be the most concise, telling, vital and humorous play that has been written by an American dramatist in many years, and it has created all kinds of discussion.

Miss Stevens' Chicago engagement is positively limited to her forthcoming appearance in New York in a new play which will be produced this season under the direction of Oliver Morosco.

In support of Miss Stevens' are such excellent players as H. Reeves-Smith, Mary Alden, Malcolm Duncan, Louis Bennison, Lillian Kemble Cooper, Isabel Richards and Jennie Lamont.

An extra popular matinee will be given on Election Day, while election returns by special leased wire will be announced from the stage Tuesday evening, Nov. 7. Regular matinees are Thursday and Saturday.

—Mrs. Lee Read, the popular vocalist, will be one of the entertainers at the women's republican meeting Saturday evening at the People's church.

—Do not fail to hear Mrs. Lewis Edwards, one of the best musicians in Dixon, at the People's Church Saturday evening.

## TAX AMENDMENT TO REDUCE LIVING COST

President Chicago Real Estate Board Explains to the Joliet Real Estate Board.

Discussing the pending Tax Amendment to be voted on November 7, Paul Steinbrecher, president of the Chicago Real Estate Board, in an address to the Joliet Real Estate Board a few days ago said, "The Amendment, when adopted, will put an end to tax dodging as to personal property. Relieved of heavy and heavier taxation rents will be more reasonable; and, this, in turn, will tend to reduce the high cost of living generally." Mr. Steinbrecher said further that only ignorance on the part of the voters may defeat the Amendment, and, he pointed out that it has the endorsement of all parties and of all of the leading economists and tax experts. Mr. Steinbrecher also showed that the system of dealing with personal property—especially intangible property—which the proposed Amendment will make possible in Illinois—is now in successful operation in twenty states. Intangible wealth, as returned by the assessors, now represents only about 5 per cent of the total taxable wealth of the state. Estimates show that the taxable intangible values in Illinois are probably about one-third to one-half of the total taxable value in the state.

The misproportion of tax burden borne by real estate everywhere throughout the state tends to create increased overhead expense for the landlord, and the manufacturer, the merchant, and the tenant. A fair apportionment of the tax burden between tangible and intangible property would operate to reduce the tax rates on real property.

Many who would have to pay taxes on intangible values under a re-modeled system are now escaping taxation altogether. Some of these imagine that the present system of tax dodging in Illinois can be carried into the future indefinitely. There are others who by their position and knowledge know that a change has got to be made that will bring about the taxing of intangible values at a reasonable rate. Those who think they can escape on their holdings of mortgage notes, bonds and stocks and other forms of intangibles, are opposed to any amendment or any revision of the tax laws which will compel them to pay even a small tax—such as that which intangible value owners pay in Pennsylvania, New York, Maryland and other states. The opposition which comes from tax dodgers of this sort is not outright and direct, but is covert and insinuating. They pretend to believe that the phraseology of the Amendment is such that it will do harm and deadly things to real estate owners. It is worth while to take into account that all of the leading real estate organizations in Illinois favor the Amendment on the ground that it will relieve real estate of some of its tax burdens.

"Voting for the Tax Amendment to the state constitution," says the Chicago Daily News, "will not be spectacular, but it will be highly important." This states the situation exactly. It is unfortunate that popular government has to deal with phases of public affairs which not only are difficult to understand but which are unattractive. The subject of taxation is extremely complicated, and presents great difficulty to arrive at just conclusions. In considering the Tax Amendment, the people should understand that two general assemblies have dealt with the question—one of them providing for a special tax commission, which was appointed by Governor Deneen. Another general assembly, acting upon the recommendations of the tax commission, submitted the Tax Amendment that is to be voted upon on November 7. Those who have not time to study out all the details and bearings of the Amendment may take it for granted that the proposition is the product of mature deliberation by the leaders of all parties—men who best understand taxation matters—and that it meets the requirements of the Illinois taxation situation.

In its condemnation of the general property tax, the Illinois Special Tax Commission quotes from the report of the Rhode Island Special Tax Commission: "The General Property Tax, which for many years has been general throughout the United States, and . . . is a constitutional provision in many states; has proved ineffectual in producing revenue; unjust because it places the burden upon the weak, while it allows the shrewd and powerful to escape; inadvisable because it brings the law into disrepute and debases the morals of the community."

Of the few who oppose the pending Tax Amendment some say, "Let the present law be enforced." This would mean that every savings bank depositor would have to pay about one-half of his three per cent interest to the tax collector.

"As a result of the present situation, there is a notorious evasion of the terms of the revenue law, which are unjust in principle and unenforceable in practice."—Illinois Special Tax Commission.

Thousands of Negroes from South Believed Registered in Chicago.

Chicago, Nov. 3.—A carefully laid plot to cast thousands of illegal votes through fraudulent registration has been unearthed here by federal agents they believe. A conference of national, state and city officials is scheduled for this week when a rigid investigation will be begun.

The alleged colonization of thousands of negroes who have been shipped by the trailhead from the south, notably Memphis and Louisville also will furnish an interesting point.

Diver Chases The Philadelphia.

New York, Nov. 3.—The American liner Philadelphia was pursued by a submarine while nearing the United States coast on its last trip, it is learned. The identity of the submarine boat is a mystery, as Captain Koenig of the Deutschland declares he saw no liner at the time and place mentioned.

## FALKENHAYN IS 23 MILES IN ROUMANIA

### Teutons Halted or Driven Back at Other Points.

London, Nov. 3.—That General von Falkenhayn's Austro-German armies have advanced twenty-three miles across the mountains from Kronstadt is indicated in an official statement from Petrograd which reports the repulse of Teuton attacks at Choleia. Berlin declares that Von Falkenhayn's advance is going on slowly but irresistibly and that at his present rate of progress he soon will have left the mountain barrier completely behind and be in a position to maneuver on the vast Rumanian plain which stretches flat as a board down to Bucharest, eight miles from Campulung. Von Falkenhayn is now reported to be only a short distance from the latter town. In his latest advance, Berlin announces, two hundred prisoners were taken. Both Alstchanz and Predal Passes have been left behind. They with Rothernurn Pass, which also has been carried, were the backbone of Rumanian defense on this part of the front.

Further to the west the Rumanians report some new successes in the Jiu valley, while their offensive movement is said by Petrograd to be continuing along the Alt river.

The fighting in Dobrudja has again undergone a lull.

## FORT VAUX AGAIN IN FRENCH HANDS

### Berlin Admits Stronghold Has Been Evacuated.

### GERMANS BLAST THE WORKS

Virtually All Won on Eastern Bank of Meuse After First Rush on Verdun Has Been Wreathed from Them. Fort Was Taken in Spring Drive After Long Fight.

London, Nov. 3.—Fort Vaux, one of the most important fortifications captured by the German Crown Prince in his prolonged drive at Verdun, has been evacuated by the Germans. The evacuation is announced by Berlin.

Virtually all the ground taken by the Germans on the easterly bank of the Meuse in their winter and spring offensive at Verdun has now, with the fall of Fort Vaux, been lost to them.

Shortly after Fort Donnemont had been retaken and a wide stretch of the front in this region regained by the French in their sudden offensive movement on Oct. 25, it was pointed out that Fort Vaux, likewise, had been put in a perilous position.

The French advanced close to the edge of the fortification on its immediate front in their great drive and pushed well beyond it on each side, making its fall, in the opinion of observers at the front, only a question of a short time.

### Germans Blast Fort.

"The artillery engagement on the east bank of the Meuse repeatedly increased to great intensity," said the German war office statement. "The French directed especially heavy destructive fire against Fort Vaux, which had already been evacuated during the night by our troops, following a given order and without being disturbed by the enemy. Important parts of the fort were blasted by us before withdrawal."

### Fort Captured on June 6.

Fort Vaux was captured by the Germans on June 6 after a terrific battle. It occupied a strong position on the summit of a hill and the French had repeatedly repulsed storming attacks up its steep sides. The Germans systematically reduced the French defenses by constant artillery fire until the fort was no longer tenable. Its evacuation by the Germans came on the two hundred and fifty-second day of the great struggle at Verdun.

### French Take 700 Prisoners.

Paris, Nov. 3.—General Foch's troops continued their successes on the Les Boeufs Sully Salisail sector of the Somme front, which enabled them to bring in another 200 prisoners, increasing the number of German taken captive during twenty-four hours to more than 700. Ten machine guns also were taken.

## WILSON IS WARMLY GREETED IN GOTHAM

### Is Cheered for 23 Minutes at Madison Square Garden.

New York, Nov. 3.—President Wilson was told by a mighty chorus of crowds which filled every available space in and about Madison Square Garden that he was certain to be re-elected on Nov. 7.

Mr. Wilson arrived at the Twenty-seventh street entrance of the Madison Square Garden amphitheater at nine o'clock. It took the police seven minutes to force a passageway through the great throng that was surging at the doors from all sides.

As the President advanced to the railing of the improvised stage he was greeted by cheers that seemingly rattled the roof of the great structure. It was a Wilson crowd and it was wildly enthusiastic.

In perfect rhythm and in splendid effect the audiences began to chant: "Four, four four more—four, four, four more—we want Wilson!" This demonstration lasted for fifteen minutes before Mr. Wilson raised his hands for quiet. The crowd started again, but in eight minutes more a great hush fell over the audience.

Mr. Wilson began by saying that the United States was face to face with one of the most serious turning points in the history of the country.

"The campaign may be said to be practically at an end, but we should give serious thought to what it has disclosed. We find again that a small body of men are seeking to control the business development of the country."

### SERBS TAKE MORE TRENCHES

French Advance to Within 12 Miles of Monastir.

Paris, Nov. 3.—Occupation of some Bulgarian trenches on the right bank of the Cerna river, at the west end of the Macedonian front, is announced by Serbian army headquarters.

The news that the French have been for several days in possession of Sareievo, twelve miles southeast of Monastir, also is contained in the report.

## BACKING-UP PROOF

THE KIND THAT DIXON PEOPLE CANNOT DENY

Many an earnest Dixon man or woman has publicly endorsed Doan's Kidney Pills.

Week after week, month after month, you've read their statements. Would these Dixon people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Dixon man's statement leaves no room for doubt.

It must convince every kindred sufferer who reads it.

If your back aches—if your kidneys are weak—profit by Mr. Walford's experience:

W. Walford, blacksmith, Peoria Ave., Dixon, says: "The kidney secretions were irregular in passage. My back ached too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

### NO TROUBLE SINCE

On January 21, 1915, Mr. Walford said: "I have had no kidney trouble at all in the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

**MARINA CASE GOES OVER FOR ELECTION**  
 Secretary Lansing Leaves Mat-  
 ter until He Votes.  
 Washington, N. Y., 3.—Secretary Lan-  
 sing has announced that the state de-  
 partment's decision in the Marina  
 case would not be reached before Nov.  
 7. He left Washington for his home in  
 Watertown, N. Y., to remain until after  
 the election.  
 The department's decision will be  
 determined by three facts now under  
 investigation:  
 First—Whether the ship was tor-  
 pedoed without warning and without  
 provision being made for the safety  
 of passengers and crew, if the Marina  
 was a peaceable merchantman.  
 Second—Whether the Marina was  
 armed offensively.  
 Third—Whether she had previously  
 been in admiralty service, which find-  
 ing would create a presumption  
 against her peaceable character.  
 Secretary Lansing admitted that it  
 is a moot question whether Germany's  
 promise to the United States relating  
 to submarine warfare applied to ves-  
 sels carrying guns.  
 When Germany's pledge in the set-  
 tlement of the Sussex case was given,  
 the United States considered it as cov-  
 ering armed merchantmen as well as  
 unarmed liners, and there never has  
 been question about the American pol-  
 icy that merchant ships have the right  
 to be armed.
